HIGHLIGHTS/ SUMMARY OF THE SCHEME

INVESTMENT OBJECTIVE

The objective of the Scheme is to seek to provide investment returns that, before expenses, closely track the performance of domestic prices of Gold derived from the LBMA AM fixing prices. However, the performance of the Scheme may differ from that of the underlying gold due to tracking error. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

The Scheme is not actively managed. The Scheme may also participate in Exchange Traded Commodity Derivatives (ETCDs) with gold as underlying.

CATEGORY OF SCHEME:

Other Schemes – Gold ETF

SCHEME CODE:

ICIC/O/O/GET/10/04/0038

LIQUIDITY

An investor can buy/sell units of the Scheme on a continuous basis on National Stock Exchange of India Limited (NSE), BSE Limited (BSE) and other recognised stock exchanges where the units of the Scheme are listed and traded like any other publicly traded securities at market prices which may be at a premium or discount, depending on availability of units of the Scheme on the exchange, to the actual NAV of the Scheme. There is no minimum investment. The trading lot is one unit of the Scheme.

All direct transactions in units of the Scheme by eligible investors with the AMC/the Fund shall be at intra-day NAV based on the actual execution price of the underlying portfolio.

Any order placed for redemption or subscription by investor directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for Market Makers and shall be periodically reviewed.

The AMC shall appoint Authorized Participant (AP)/ Market Maker who will provide a two-way quote in the secondary market in order to provide liquidity in the market.

BENCHMARK

ICICI Prudential Gold ETF will be benchmarked against the domestic price of gold as derived from the LBMA AM fixing prices.

TRANSPARENCY/ NAV DISCLOSURE

The NAV will be calculated and disclosed at the close of every Business Day. NAV will be determined on every Business Day except in special circumstances. NAV of the scheme shall be:

I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- Mutual Fund and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the Scheme will be achieved.
- As with any securities investment, the NAV of the Units issued under the Scheme can go up or down depending on the factors and forces affecting the capital markets.
- As the price/value/interest rates of the securities/assets in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down.
- Past performance of the Sponsor/AMC/Mutual Fund and their associates is not indicative of the performance of the Scheme.
- ICICI Prudential Gold ETF does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- ICICI Prudential Gold ETF is an Exchange Traded Fund (ETF). There can be no assurance that an active secondary market will develop or be maintained.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 22.2 lakh collectively made by them towards setting up the Fund and such other accretions and additions to the corpus set up by the Sponsors.
- The present Scheme is not a guaranteed or assured return scheme.
- ICICI Prudential Gold ETF is an Exchange Traded Fund (ETF). There can be no assurance that an active secondary market will develop or be maintained.
- The NAVs of the Scheme may be affected by changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors and trading volumes, settlement periods and transfer procedures.
- In the event of receipt of inordinately large number of redemption requests or of a restructuring of any of the Scheme's portfolio, there may be delays in the redemption of Units.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- Investors in the Scheme are not being offered any guaranteed/indicated returns.
- The Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.
- Mutual funds being vehicles of securities/ assets investments are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Schemes. The various factors which impact the value of the Scheme's investments include, but are not limited to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the

securities, tax laws in various countries, liquidity of the underlying instruments, settlement periods, trading volumes overseas etc.

- Investment decisions made by the AMC may not always be profitable.
- Different types of securities/ assets in which the Scheme would invest as given in the SID carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities.
- Two-Factor Authentication and Third – Party Payments will be carried out in line with SEBI Circulars dated October 4, 2021, March 15, 2022 and any further clarifications received by AMFI and SEBI in this regard. In case of unsuccessful Two-Factor Authentication the redemption request might get rejected.
- Infectious Illness Risk: An outbreak of an infectious respiratory illness, COVID 19, caused by a novel coronavirus has resulted in travel restrictions, disruption of healthcare systems, prolonged quarantines, cancellations, supply chain disruptions, lower consumer demand, layoffs, ratings downgrades, defaults and other significant economic impacts. Certain markets have experienced temporary closures, extreme volatility, severe losses, reduced liquidity and increased trading costs. Such events can have an impact on the underlying Schemes and could impact their ability to purchase or sell securities or cause elevated tracking error and increased premiums or discounts to the NAV. Other infectious illness outbreaks in the future may result in similar impacts.

Scheme Specific Risk Factors

1. The Scheme would invest in Gold and Gold-linked instrument(s). Accordingly, the NAV of the Scheme will react to Gold price movements. Units of the fund are listed on a stock exchange; hence the market prices of the units would also react to general stock market fluctuations.
2. Although units are listed on an exchange, there can be no assurance that an active secondary market will develop or be maintained. Prices of units, which are listed and traded, could be impacted by thin liquidity in the secondary market as these funds may not be actively traded.
3. Risk of passive investment: The Scheme is not actively managed. The Scheme may be affected by a general price decline in the gold prices. The Scheme ultimately invests in gold as an asset class regardless of such investment merit. The AMC does not attempt to take defensive positions in declining markets.
4. Trading in units on the exchange may be halted because of market conditions or for reasons that in view of exchange authorities or SEBI, trading in units of the Scheme is not advisable. In addition, trading in units is subject to trading halts caused by extraordinary market volatility and pursuant to exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of exchange necessary to maintain the listing of the units will continue to be met or will remain unchanged.
5. The units may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of holdings. The trading prices will fluctuate in accordance with changes in their NAV as well as market supply and demand. However, given that units can be created and redeemed in Creation Units, it is expected that large discounts or premiums to the NAV will not sustain due to arbitrage opportunity available.

6. Any changes in trading regulations by the stock exchange(s) or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV.
7. The returns from physical gold in which the Scheme invests may under perform returns from the various general securities markets or different asset classes other than gold. Different types of securities tend to go through cycles of out-performance and under-performance in comparison to the general securities markets.
8. Gold Exchange Traded Funds are relatively new product and their value could decrease if unanticipated operational or trading problems arise.
9. There is no Exchange for physical gold in India. The Scheme may have to buy or sell gold from the open market, which may lead to counter party risks for the Scheme for trading and settlement.
10. An investment in the Scheme may be adversely affected by competition from other methods of investing in gold.
11. The Trustee, in the general interest of the unit holders of the Scheme offered under this Scheme Information Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day.
12. For the valuation of units, indirect taxes like customs duty, VAT etc. would also be considered. Hence, any change in the rates of indirect taxation would affect the valuation of units of the Scheme.
13. The Scheme may also invest in gold related instruments, money market instruments, bonds & other debt securities as permitted under the Regulations which are subject to price, credit and interest rate risk. Trading volumes and settlement periods and transfer procedures may restrict liquidity in debt investments.

Physical gold: There is a risk that part or all of the Scheme's gold could be lost, damaged or stolen. Access to the Scheme's gold could also be restricted by natural events or human actions. Any of these actions may have adverse impact on the operations of the Scheme and consequently on investment redemption in Units.

A. Market risk due to volatility in Gold prices: The value of the Units relates directly to the value of the Gold held by the Scheme and therefore, fluctuations in the price of Gold could adversely affect investment value of the Units. The factors that may affect the price of Gold, inter alia, include demand & supply, economic and political developments, changes in interest rates and perceived trends in bullion prices, exchange rates, inflation trends, market movements, restrictions on movement/trade of Gold that may be imposed by the Reserve Bank of India (RBI), and restrictions on import/export of Gold or Gold jewellery, etc. Hence, the investor may also lose money due to fluctuation in the prices of the Gold. Value of Gold ETFs may decrease if unanticipated operational or trading problems arise.

- There is no Exchange for physical Gold in India. The Scheme may have to buy or sell Gold from the open market, which may lead to counter party risks for the Scheme for trading and settlement.
- An investment in the Scheme may be adversely affected by competition from other modes and methods of investing in Gold.

- For the valuation of units, indirect taxes would also be considered. Hence, any change in the rates or norms of indirect taxation would affect the valuation of units of the Scheme.
- The Scheme may invest in Gold and Gold related instruments, debt and money market instruments including units of debt oriented mutual funds as permitted under the Regulations which are subject to price, credit and interest rate risk. Trading volumes and settlement periods and transfer procedures may restrict liquidity in debt and money market investments.

B. Liquidity risks in physical or derivative markets impairing the ability of the fund to buy and sell Gold: Due to various regulatory, economic and market conditions, the ability of the Scheme to buy and/or sell Gold in physical or trade in ETCD with Gold as an underlying, could be impacted.

C. Risks associated with handling, storing and safekeeping of physical Gold: There is a risk that part or all of the Scheme's Gold could be lost, damaged or stolen. Access to the Scheme's Gold could also be restricted by natural events or human actions. Any of these actions may have adverse impact on the operations of the scheme and consequently on investment in units.

Several factors that may affect the price of gold are as follows:

- a) Global gold supplies and demand, which is influenced by factors such as forward selling by gold producers, purchases made by gold producers to unwind gold hedge positions, central bank purchases and sales, and productions and cost levels in major gold producing countries such as the South Africa, the United States and Australia.
- b) Investors' expectations with respect to the rate of inflation;
- c) Currency exchange rates;
- d) Interest rates;
- e) Investment and trading activities of hedge funds and commodity funds; and
- f) Global or regional political, economic or financial events and situations.
- g) In addition, investors should be aware that there is no assurance that gold will maintain its long-term value in terms of purchasing power in the future. In the event that the price of gold declines, the value of investment in units is expected to decline proportionately.
- h) Changes in indirect taxes like custom duties for import, sales tax, VAT or any other levies will have an impact on the valuation of gold and consequently the NAV of the Scheme.

- **Portfolio Concentration Risk**

To the extent that the Scheme may concentrate its investments in Gold and Gold-related instrument(s), the Scheme will therefore be subject to the risks associated with such concentration.

- **Risks associated with investment in ADR/GDR and foreign securities**

The Scheme will not have any exposure in ADR/GDR and foreign securities.

- **Risks associated with Investing in Derivatives –**

The Scheme would not be investing in derivatives.

- **Risks associated with Investing in securitized debt–**

A securitization transaction involves sale of receivables by the originator (a bank, non-banking finance company, housing finance company, microfinance companies or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass Through Certificates (PTCs), the proceeds of which are paid as consideration to the originator. In this manner, the originator, by selling his loan receivables to an SPV, receives consideration from investors much before the maturity of the underlying loans. Investors are paid from the collections of the underlying loans from borrowers. Typically, the transaction is provided with a limited amount of credit enhancement (as stipulated by the rating agency for a target rating), which provides protection to investors against defaults by the underlying borrowers. Generally available asset classes for securitization in India are:

- Commercial vehicles
- Auto and two wheeler pools
- Mortgage pools (residential housing loans)
- Personal loan, credit card and other retail loans
- Corporate loans/receivables
- Microfinance receivables

In pursuance to SEBI communication dated: August 25, 2010, given below are the requisite details relating to investments in Securitised debt.

- Risk profile of securitized debt vis-à-vis risk appetite of the scheme:

Investment in these instruments will help the fund in aiming at reasonable returns. These returns come with a certain degree of risks which are covered separately in the Scheme Information Document. Accordingly, the medium risk profile of the securitised debt instruments matches that of the prospective investors of these funds.

- Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc.
- Risk mitigation strategies for investments with each kind of originator

For a complete understanding of the policy relating to selection of originators, we have first analyzed below risks attached to a securitization transaction.

In terms of specific risks attached to securitization, each asset class would have different underlying risks, however, residential mortgages are supposed to be having lower default rates as an asset class. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly

fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher, which helps in making their overall risks comparable to other AAA/AA rated asset classes.

The Scheme may invest in securitized debt assets. These assets would be in the nature of Asset Backed securities (ABS) and Mortgage Backed securities (MBS) with underlying pool of assets and receivables like housing loans, auto loans and single corporate loan originators. The Scheme intends to invest in securitized instruments rated AAA/AA by a SEBI recognized credit rating agency.

Before entering into any securitization transaction, the risk is assessed based on the information generated from the following sources:

- (1) Rating provided by the rating agency
- (2) Assessment by the AMC

(1) Assessment by a Rating Agency

In its endeavor to assess the fundamental uncertainties in any securitization transaction, a credit rating agency normally takes into consideration following factors:

Credit Risk:

Credit risk forms a vital element in the analysis of securitization transaction. Adequate credit enhancements to cover defaults, even under stress scenarios, mitigate this risk. This is done by evaluating following risks:

- Asset risk
- Originator risk
- Portfolio risk
- Pool risks

The quality of the pool is a crucial element in assessing credit risk. In the Indian context, generally, pools are 'cherry-picked' using positive selection criteria. To protect the investor from adverse selection of pool contracts, the rating agencies normally take into consideration pool characteristics such as pool seasoning (seasoning represents the number of installments paid by borrower till date: higher seasoning represents better quality), over dues at the time of selection and Loan to Value (LTV). To assess its risk profile vis-à-vis the overall portfolio, the pool is analyzed with regard to geographical location, borrower profile, LTV, and tenure.

Counterparty Risk:

There are several counterparties in a securitization transaction, and their performance is crucial. Unlike in the case of credit risks, where the risks emanate from a diversified pool of retail assets, counterparty risks result in either performance or non-performance. The rating agencies generally mitigate such risks through the usage of stringent counterparty selection and replacement criteria to reduce the risk of failure. The risks assessed under this category include:

- Servicer risk
- Commingling risk
- Miscellaneous other counterparty risks

Legal Risks:

The rating agency normally conducts a detailed study of the legal documents to ensure that the investors' interest is not compromised and relevant protection and safeguards are built into the transaction.

Market Risks:

Market risks represent risks not directly related to the transaction, but other market related factors, stated below, which could have an impact on transaction performance, or the value of the investments to the investors.

- Macro-economic risks
- Prepayment risks
- Interest rate risks

Other Risks associated with investment in securitized debt and mitigation measures

Limited Liquidity and Price Risk:

There is no assurance that a deep secondary market will develop for the Certificates. This could limit the ability of the investor to resell them.

Risk Mitigation: Securitized debt instruments are relatively illiquid in the secondary market and hence they are generally held to maturity. The liquidity risk and HTM nature is taken into consideration at the time of analyzing the appropriateness of the securitization.

Limited Recourse, Delinquency and Credit Risk:

The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the Issuer or the Seller or the originator, or the parent or any associate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts to the Certificate Holders may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Servicer may repossess and sell the Asset. However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realise the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Risk Mitigation: In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained to ensure that they all qualify for similar rating.

Risks due to possible prepayments: Weighted Tenor / Yield

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments Full prepayment of underlying loan contract may arise under any of the following circumstances;

- Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or
- Receivable is required to be repurchased by the Seller consequent to its inability to rectify a material misrepresentation with respect to that Receivable; or
- The Servicer recognizing a contract as a defaulted contract and hence repossessing the underlying Asset and selling the same
- In the event of prepayments, investors may be exposed to changes in tenor and yield.

Risk Mitigation: A certain amount of prepayments is assumed in the calculations at the time of purchase based on historical trends and estimates. Further a stress case estimate is calculated and additional margins are built in.

Bankruptcy of the Originator or Seller:

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale, then an Investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a "True Sale". Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Risk Mitigation: Normally, specific care is taken in structuring the securitization transaction so as to minimize the risk of the sale to the trust not being construed as a 'true sale'. It is also in the interest of the originator to demonstrate the transaction as a true sell to get the necessary revenue recognition and tax benefits.

Bankruptcy of the Investor's Agent:

If Investor's agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor's Agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent. Legal opinion is normally obtained to the effect that the Investors Agent's recourse to assets/receivables is restricted in its capacity as agent and trustee and not in its personal capacity.

Risk Mitigation: All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent.

Credit Rating of the Transaction / Certificate:

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling:

With respect to the Certificates, the Servicer will deposit all payments received from the Obligors into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of originator. If originator in its capacity as Servicer fails to remit such funds due to Investors, the Investors may be exposed to a potential loss.

(2) Assessment by the AMC

Mapping of structures based on underlying assets and perceived risk profile

The scheme will invest in securitized debt originated by Banks, NBFCs and other issuers of investment grade credit quality and established track record. The AMC will evaluate following factors, while investing in securitized debt:

Originator:

Acceptance Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

Track record:

The AMC ensures that there is adequate past track record of the Originator before selection of the pool including a detailed look at the number of issuances in past, track record of issuances, experience of issuance team, etc.

Willingness to pay:

As the securitized structure has underlying collateral structure, depending on the asset class, historical NPA trend and other pool / loan characteristics, a credit enhancement in the form of cash collateral, such as fixed deposit, bank, guarantee etc. is obtained, as a risk mitigation measure.

Ability to pay:

This assessment is based on a strategic framework for credit analysis, which entails a detailed financial risk assessment.

Management analysis is used for identifying company specific financial risks. One of the most important factors for assessment is the quality of management based on its past track record and feedback from market participants. In order to assess financial risk a broad assessment of the issuer's financial statements is undertaken to review its ability to undergo stress on cash flows and asset quality. Business risk assessment, wherein following factors are considered:

- Outlook for the economy (domestic and global)
- Outlook for the industry
- Company specific factors

In addition, a detailed review and assessment of rating rationale is done including interactions with the company as well as agency

Critical Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

Typically, the AMC would avoid investing in securitization transaction (without specific risk mitigant strategies / additional cash/security collaterals/ guarantees) if there are concerns on the following issues regarding the originator / underlying issuer:

- High default track record/ frequent alteration of redemption conditions / covenants
- High leverage ratios – both on a standalone basis as well on a consolidated level/ group level
- Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be
- Higher proportion of overdue assets of the pool or the underlying loan, as the case may be
- Poor reputation in market
- Insufficient track record of servicing of the pool or the loan, as the case may be.

Advantages of Investments in Single Loan Securitized Debt

- **Wider Coverage:** A Single Loan Securitized Debt market offers a more diverse range of issues / exposures as the Banks / NBFCs lend to larger base of borrowers.
- **Credit Assessment:** Better credit assessment of the underlying exposure as the Banks / NBFCs ideally co-invest in the same structure or take some other exposure on the same borrower in some other form.
- **Better Structuring:** Single Loan Securitized Debt investments facilitates better structuring than investments in plain vanilla debt instruments as it is governed by Securitization guidelines issued by RBI.
- **Better Legal documentation:** Single Loan Securitized Debt structures involve better legal documentation than Non-Convertible Debenture (NCD) investments.
- **End use of funds:** Securitized debt has better standards of disclosures as well as limitation on end use of funds as compared to NCD investments wherein the end use is general corporate purpose.
- **Yield enhancer:** Single Loan Securitized Debt investments give higher returns as compared to NCD investments in same corporate exposure.
- **Regulator supervision:** Macro level supervision from RBI in Securitization Investments as compared to NCD investments.
- **Tighter covenants:** Single Loan Securitized Debt structures involve tighter financial covenants than NCD investments.

Disadvantages of Investments in Single Loan Securitized Debt

- **Liquidity risk:** Investments in Single Loan Securitized Debts have relatively less liquidity as compared to investments in NCDs.
- **Co-mingling risk:** Servicers in a securitization transaction normally deposit all payments received from the obligors into a collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account. In this interim period, collections from the loan agreements by the servicer may not be segregated from other funds of the servicer. If the servicer fails to remit such funds due to investors, investors in the Scheme may be exposed to a potential loss.

Table below illustrates the framework that will be applied while evaluating investment decision relating to a pool securitization transaction:

| Characteristics/Type of Pool | Mortgage Loan | Commercial Vehicle and Construction Equipment | CAR | 2wheelers | Micro Finance Pools | Personal Loans |
|--|----------------------|--|----------------------|----------------------|-----------------------------|-----------------------|
| Approximate Average maturity (in Months) | 36-120 months | 12-60 months | 12-60 months | 15-48 months | 15-80 weeks | 5 months -3 years |
| Collateral margin (including cash , guarantees, excess interest spread, subordinate tranche) | 3-10% | 4-12% | 4-13% | 4-15% | 5-15% | 5-15% |
| Average Loan to Value Ratio | 75%-95% | 80%-98% | 75%-95% | 70%-95% | Unsecured | Unsecured |
| Average seasoning of the Pool | 3-5 months | 3-6 months | 3-6 months | 3-5 months | 2-7 weeks | 1-5 months |
| Maximum single exposure range | 4-5% | 3-4% | NA (Retail Pool) | NA (Retail Pool) | NA (Very Small Retail loan) | NA (Retail Pool) |
| Average single exposure range % | 0.5%-3% | 0.5%-3% | <1% of the Fund size | <1% of The Fund size | <1% of The Fund size | <1% of The Fund size |

Notes:

1. Retail pools are the loan pools relating to Car, 2 wheelers, micro finance and personal loans, wherein the average loan size is relatively small and spread over large number of borrowers.
2. Information illustrated in the Tables above, is based on the current scenario relating to Securitized Debt market and is subject to change depending upon the change in the related factors.
3. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments
4. Majority of our securitized debt investments shall be in asset backed pools wherein underlying assets may be Medium and Heavy Commercial Vehicles, Light Commercial Vehicles (LCV), Cars, and Construction Equipment etc. Where we invest in Single Loan Securitization, as the credit is on the underlying issuer, we focus on the credit review of the borrower.

In addition to the framework as per the table above, we also take into account following factors, which are analyzed to ensure diversification of risk and measures identified for less diversified investments:

- Size of the Loan:

We generally analyze the size of each loan on a sample basis and analyze a static pool of the originator to ensure the same matches the Static pool characteristics. Also indicates whether there is excessive reliance on very small ticket size, which may result in difficult and costly recoveries. To illustrate, the ticket size of housing loans is generally higher than that of personal loans. Hence in the construction of a housing loan asset pool for say Rs.1,00,00,000/- it may be easier to construct a pool with just 10 housing loans of Rs.10,00,000 each rather than to construct a pool of personal loans as the ticket size of personal loans may rarely exceed Rs.5,00,000/- per individual. Also to amplify this illustration further, if one were to construct a pool of Rs.1,00,00,000/- consisting of personal loans of Rs.1,00,000/- each, the larger number of contracts (100 as against one of 10 housing loans of Rs.10 lakhs each) automatically diversifies the risk profile of the pool as compared to a housing loan based asset pool.

- **Average Original Maturity of the Pool:**

Indicates the original repayment period and whether the loan tenors are in line with industry averages and borrower's repayment capacity. To illustrate, in a car pool consisting of 60-month contracts, the original maturity and the residual maturity of the pool viz. number of remaining installments to be paid gives a better idea of the risk of default of the pool itself. If in a pool of 100 car loans having original maturity of 60 months, if more than 70% of the contracts have paid more than 50% of the installments and if no default has been observed in such contracts, this is a far superior portfolio than a similar car loan pool where 80% of the contracts have not even crossed 5 installments.

- **Default Rate Distribution:**

We generally ensure that all the contracts in the pools are current to ensure zero default rate distribution. Indicates how much % of the pool and overall portfolio of the originator is current, how much is in 0-30 DPD (days past due), 30-60 DPD, 60-90 DPD and so on. The rationale here being, as against 0-30 DPD, the 60-90 DPD is certainly a higher risk category.

- **Geographical Distribution:**

Regional/state/ branch distribution is preferred to avoid concentration of assets in a particular region/state/branch.

- **Loan to Value Ratio:**

Indicates how much % value of the asset is financed by borrower's own equity. The lower LTV, the better it is. This Ratio stems from the principle that where the borrowers own contribution of the asset cost is high, the chances of default are lower. To illustrate for a Truck costing Rs.20 lakhs, if the borrower has himself contributed Rs.10 lakhs and has taken only Rs.10 lakh as a loan, he is going to have lesser propensity to default as he would lose an asset worth Rs.20 lakhs if he defaults in repaying an installment. This is as against a borrower who may meet only Rs.2 lakhs out of his own equity for a truck costing Rs.20 lakh. Between the two scenarios given above, the latter would have higher risk of default than the former.

- **Average seasoning of the pool:**

Indicates whether borrowers have already displayed repayment discipline. To illustrate, in the case of a personal loan, if a pool of assets consists of those who have already repaid 80% of the installments without default, this certainly is a superior asset pool than one where only 10% of installments have been paid. In the former case, the portfolio has already demonstrated that the repayment discipline is far higher.

- **Risk Tranching:**

Typically, we would avoid investing in mezzanine debt or equity of Securitised debt in the form of sub ordinate tranche, without specific risk mitigant strategies / additional cash / security collaterals/ guarantees, etc.

- **The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund**

Investments made by the scheme in any asset are done based on the requirements of the scheme and is in accordance with the investment policy. All Investments are made entirely at an arm's length basis with no consideration of any existing / consequent investments by any party related to the transaction (originator, issuer, borrower etc.). Investments made in Securitized debt are made as per the Investment pattern of the Scheme and are done after detailed analysis of the underlying asset. There might be instances of Originator investing in the same scheme but both the transactions are at arm's length and avoid any conflict of interest. In addition to internal controls in the fixed income investment process, there is regular monitoring by the compliance team, risk management group, and internal review teams. Normally the issuer who is securitizing instrument is in need of money and is unlikely to have long term surplus to invest in mutual fund scheme.

- **In general, the resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt**

The risk assessment process for securitized debt, as detailed in the preceding paragraphs, is same as any other credit. The investments in securitized debt are done after appropriate research by credit analyst. The ratings are monitored for any movement. Monthly Pool Performance MIS is received from the trustee and is analyzed for any variation. The entire securitized portfolio is published in the fact sheet and disclosed in the website with details of underlying exposure and originator.

Note: The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

- **Risks associated with Short Selling and Securities Lending**

The Scheme shall not undertake any short selling and stock lending activity.

- **Risk Factors Associated with Investments in Exchange Traded Commodity Derivatives (ETCD)**

- An exchange traded commodity derivative is a derivative instrument that mimics the price movements of an underlying commodity, allowing an investor exposure to the commodity without physical purchase.
- **Liquidity Risk:** While ETCDs that are listed on an exchange carry lower liquidity risk, the ability to sell these contracts is limited by the overall trading volume on the exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes of the ETCD contracts in which it invests. Additionally, change in margin requirements or intervention by government agencies to reduce overall volatility in the underlying commodity could lead to adverse impact on the liquidity of the ETCD.

- Price risk: ETCDs are leveraged instruments hence, a small price movement in the underlying security could have a large impact on their value. Also, the market for ETCDs is nascent in India hence, arbitrages can occur between the price of the physical commodity and the ETCD, due to a variety of reasons such as technical issues and volatile movement in the price of the physical good. This can result in mispricing and improper valuation of investment decisions as it can be difficult to ascertain the amount of the arbitrage.
- Settlement risk: ETCDs can be settled either through the exchange or physically. The inability to sell ETCDs held in the Schemes' portfolio in the exchanges due to the extraneous factors may impact liquidity and would result in losses, at times, in case of adverse price movement. Wherein the underlying commodity is physically delivered in order to settle the derivative contract, such settlement could get impacted due to various issues, such as logistics, Government policy for trading in such commodities.
- **Risk associated with investing in fixed income securities:**
 - **Interest Rate risk/Market risk:** The Net Asset Value (NAV) of the Scheme, to the extent invested in fixed income securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme/underlying scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
 - **Credit risk:** Investments in fixed income securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
 - **Liquidity risk:** The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.
 - **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
 - **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

- Fixed Income Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- **Settlement risk:** The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Schemes' portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Plan, in case of a subsequent decline in the value of securities held in the Schemes' portfolio.
- **Regulatory Risk:** Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Scheme.
- The scheme may invest in units of debt oriented schemes of ICICI Prudential Mutual Fund or other schemes which may also be subject to risks as stated above.

- **Risks associated with investing in Tri Party Repo through CCIL (TREPS):**

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the

Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

Portfolio Turnover

Portfolio turnover is defined as the aggregate of purchases and sales as a percentage of the corpus of the Scheme during a specified period of time. The portfolio turnover shall be generally on account of purchase and redemptions in the scheme.

- **Risk Mitigation Strategies:**

Risk Mitigation measures for portfolio volatility

The Scheme being passively managed carry lesser risk compared to active management. The Scheme follow the underlying price of gold and therefore the level of portfolio volatility would be same as that of the underlying gold price. The fund manager would also endeavour to keep minimal cash levels to keep performance deviation to minimal.

Risk mitigation measures for managing liquidity

The Scheme invest in physical gold which satisfy the norms of 'Good Delivery' as defined by London Bullion Markets association. Liquidity issues are not envisaged as gold is a globally traded commodity and thereby liquid. There are also designated Authorised Participants who facilitate liquidity on the exchange.

Also the Scheme could have tracking error with respect to price of physical gold which may add to the Schemes tracking error with its benchmark i.e. physical gold due to various factors including but not limited to:

1. Delay in the purchase or sale of gold due to
 - a. Illiquidity of gold,
 - b. Delay in realization of sale proceeds,
 - c. Creating a lot size to buy the required amount of gold

Risk Mitigation:

- a. Gold is a fairly liquid asset and hence in normal circumstances would be available for purchase and sale at all points of time.

- b. The AMC has a robust process of retrieving speedily the daily collections at various RTA locations. The RTA has been advised to bank cheques as expeditiously as possible. The AMC tracks the daily cash flows and the Fund Managers towards prompt deployment, subject to market conditions.

- c. Even if the collections reported on a day are less than the minimum lot size, the AMC canmay procure the required quantity through open market purchases. The AMCs generally appoint Authorised Participants to ensure liquidity in the market place.

2. The Scheme may buy or sell the gold at different points of time during the trading session at the then prevailing prices which may not correspond to its closing prices.

Risk Mitigation:

Investment is based on the judgment of the Fund Manager who shall work towards furtherance of the unitholders interest.

3. The potential for trades to fail, which may result in the Scheme not having acquired gold at a price necessary to track the benchmark price.

Risk Mitigation:

Units procured through exchanges have an auction process inbuilt into them, and hence the aforesaid risk is automatically mitigated. Even for lot size purchases, the AMC deals with multiple reputed banks/authorized participants whereby the probability of default in trades are remote.

4. The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses.

Risk Mitigation: The fund manager would endeavour to keep cash to the minimal, subject to the asset allocation table; the fund has also proposed a minimal expenses ratio, thereby reducing the extent of tracking error.

5. Execution of large buy / sell orders, and disinvestments to meet redemptions, recurring expenses, dividend payouts etc.

Risk Mitigation: Endeavor shall be carry out these deals at best possible prices available at the time of investments. Distortions, if any could automatically get corrected over periods of time.

6. Transaction cost (including taxes and insurance premium) and recurring expenses

Risk Mitigation: The Fund seeks to keep it to the minimal to reduce the impact of the tracking error. The AMC will endeavor to keep the tracking error as low as possible. However, this may vary when the markets are very volatile.

Risk management strategies: The Scheme by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in gold. The risk control process involves identifying & measuring the risk through various risk measurement tools. The Scheme has identified following risks of investing in gold and designed risk management strategies, which are embedded in the investment process to manage such risks.

| Risk & Description | Risk mitigants / management strategy |
|---|--|
| Tracking Error: The performance of the Scheme may not be commensurate with the performance of the benchmark index on any given day or over any given period, referred to as tracking error. | The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The investment manager will endeavor to maintain low cash levels to minimize tracking error. |
| Price risk: Fluctuations in the price of Gold | The fund is passively managed and fluctuations in Gold prices will not increase the tracking |

| | |
|---|---|
| | error. |
| Liquidity risk: Inability to buy / sell appropriate quantity of gold | Purchase of gold: All bullion banks have access to the international markets for purchase of gold. Sale of gold: The bullion banks are not allowed to sell the gold back in the international markets. However, sale of gold to meet the expenses of the Scheme would require gold to be sold in very small quantities which would be bought by the Bullion Bank. |
| Event risk/Custody Risk: Risk of loss, damage, theft, impurity etc. of gold | There is a risk that part or all of the physical gold belonging to the Scheme could be lost, damaged or stolen. In order to ensure safety, the said gold will be stored with custodian in its vaults. Gold held by custodian is also insured. The custodian will insure/cover all such risks. |

| Risk & Description specific to Debt | Risk mitigants / management strategy |
|--|---|
| <p><u>Market Risk</u> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p> | <p>In a rising interest rates scenario the Scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.</p> |
| <p><u>Liquidity or Marketability Risk</u> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).</p> | <p>The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.</p> |
| <p><u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.</p> | <p>Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.</p> <p>In case of securitized debt instruments, the fund will ensure that these instruments are sufficiently backed by assets.</p> |
| <p><u>Reinvestment Risk</u> This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p> | <p>Reinvestment risks will be limited to the extent of coupons received on debt instruments, which may be a very small portion of the portfolio value.</p> |

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

In terms of SEBI circular no. SEBI/IMD/CIR No. 10/22701/03 dated December 12, 2003, guidelines on Minimum Number of Investors in Schemes/Plans of Mutual Funds is not applicable to Exchange Traded Funds.

C. SPECIAL CONSIDERATIONS, IF ANY

- Investors in the Scheme are not being offered any guaranteed returns.
- The AMC is also engaged in portfolio management services (PMS) since October

2000 under SEBI Registration No. INP00000373. The AMC is also rendering Non-binding Advisory Services for such categories of SEBI registered foreign portfolio investors (FPIs) which are listed in SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2019/155 dated December 16, 2019. The AMC is also providing investment management services to Alternative Investment Funds registered under SEBI (Alternative Investment Funds) Regulations, 2012. Further, the AMC shall also provide investment management services, including dealing services to Offshore funds from India in accordance with Regulation 24(b) of SEBI (Mutual Funds) Regulations, 1996. The AMC is also registered with United States Securities and Exchange Commission as an Investment Adviser under Investment Adviser Act 1940. The AMC has a common research team. These activities are not in conflict with the activities of the Mutual Fund. In the situations of unavoidable conflicts of interest, the AMC undertakes that it shall satisfy itself that adequate disclosures are made of sources of conflict, potential material risk or damage' to investor interest and develop parameters for the same.

- The Mutual Fund may disclose details of the investor's account and transactions thereunder to those intermediaries whose stamp appears on the application form. In addition, the Mutual Fund may disclose such details to the bankers / its agents, as may be necessary for the purpose of effecting payments to the investor. Further, the Mutual Fund may disclose details of the investor's account and transactions thereunder to any Regulatory/Statutory entities as per the provisions of law.
- Investors are advised to consult their Legal /Tax and other Professional Advisors in regard to tax/legal implications relating to their investments in the Scheme and before making decision to invest in or redeem the Units.
- In view of the individual nature of the tax consequences, each investor is advised to consult his/ her own professional tax advisor to determine possible legal, tax, financial or other considerations for subscribing and/or redeeming the Units and/or before making a decision to invest/ redeem Units. The tax information contained in SID/SAI alone may not be sufficient and should not be used for the development or implementation of an investment strategy or construed as investment advice. Investors alone shall be fully responsible/ liable for any investment decision taken on the basis of this document.
- Neither the Mutual Fund nor the AMC nor any person connected with it accepts any liability arising from the use of this information. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Schemes are wound up for the reasons and in the manner provided in SAI.
- Redemption by the Unit holder either due to change in the fundamental attributes of the Scheme(s) or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise.
- Investors are advised to rely upon only such information and/or representations as contained in this SID. Any subscription or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are inconsistent with the information contained herein shall be solely at the risk of the Investor. The Investor is required to confirm the credentials of the individual/firm he/she is entrusting his/her application form along with payment instructions for any transaction in the Scheme(s). The Mutual Fund/ Trustee/AMC shall not be responsible for any acts done by the intermediaries representing or purportedly representing such Investor.

- Mutual funds investments are subject to market risks and the Investors should review/study this SID, the SAI and the addenda thereto issued from time to time carefully in its entirety before investing and should not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation or financial/investment matters. There can be no assurance or guarantee that the Scheme objectives will be achieved and the investment decisions made by the AMC may not always be profitable.
- The AMC may freeze/lock the folio(s) of investor(s)/Unitholder(s) for further transactions or reject any applications for subscription or redemption of units pursuant to receipt of instructions/directions/orders issued by any Governmental, judicial, quasi-judicial or other similar authority (Authority), including orders restricting the investor (s)/Unitholder(s) from dealing in securities or for attachment of units held by the investor(s)/Unitholder(s).
- The Product labeling mandated by SEBI is to provide investors an easy understanding of the risk involved in the kind of product / scheme they are investing to meet their financial goals. The Riskometer categorizes various schemes under different levels of risk based on the investment objective, asset allocation pattern, investment strategy and typical investment time horizon of investors. Therefore, the schemes falling under the same level of risk in the Riskometer may not be similar in nature. Investors are advised before investing to evaluate a Scheme not only on the basis of the Product labeling (including the Riskometer) but also on other quantitative and qualitative factors such as performance, portfolio, fund managers, strategy, asset allocation, investment objective etc. and shall seek appropriate advise, if they are unsure about the suitability of the Scheme before investing. As per SEBI Guidelines, Riskometers shall be reviewed on a monthly basis based on evaluation of risk level of Scheme's month end portfolios. Notice about changes in Riskometers, if any, shall be issued. Investors may refer to the website for any change in Riskometers.

Note: The Due Diligence Certificate dated April 11, 2023 stated above was submitted to SEBI.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

An open ended exchange traded fund replicating domestic prices of gold.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The objective of the Scheme is to seek to provide investment returns that, before expenses, closely track the performance of domestic prices of Gold derived from the LBMA AM fixing prices. However, the performance of the Scheme may differ from that of the underlying gold due to tracking error. There can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

The Scheme is not actively managed. The Scheme may also participate in Exchange Traded Commodity Derivatives (ETCDs) with gold as underlying.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

| Instruments | Indicative allocations (% of total assets) | | Risk Profile (High/Medium/Low) |
|---|---|---------|-----------------------------------|
| | Maximum | Minimum | |
| Gold bullion and instruments with Gold as underlying that may be specified by SEBI# | 100 | 95 | Very High |
| Debt & Money Market Instruments including units of Debt oriented Mutual Funds* | 5 | 0 | Low to Medium |

*Investments in Securitised debt shall be limited to the maximum exposure allowed to the debt & instruments as per above asset allocation.

#In addition to the above, the Scheme may also participate in Exchange Traded Commodity Derivatives (ETCDs) with gold as underlying to the extent of 50% of net asset value of the scheme. Such investments shall be made in line with the SEBI regulations.

The cumulative gross exposure through Gold (including ETCDs with gold as underlying) and Debt, and such other securities/assets as may be permitted by the Board from time to time, subject to prior approval from SEBI, if required, should not exceed 100% of the net assets of the scheme.

Note: Whenever SEBI notifies any instrument in this regard, the scheme may invest in such instruments. The portfolio would be reviewed periodically to address any deviations from the aforementioned allocations due to market changes.

The Margin may be placed in the form of such securities/instruments/deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities/instruments/deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

It may be noted that no prior intimation/indication would be given to investors when the composition/asset allocation pattern under the Scheme undergo changes within the permitted band as indicated above or for changes due to defensive positioning of the portfolio with a view to protect the interest of the unitholders on a temporary basis. The investors/unitholders can ascertain details of asset allocation of the Scheme as on the last date of each month on AMC's website at www.icicipruamc.com that will display the asset allocation of the Scheme as on the given day.

Investors may note that securities, which endeavour to provide higher returns typically, display higher volatility. Accordingly, the investment portfolio of the Scheme would reflect moderate to high volatility in its Gold related investments and low to moderate volatility in its debt and money market investments.

Rebalancing Period:

In case of change in constituents of the index due to periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days (or any other timeline as may be prescribed by SEBI from time to time).

Subject to the regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view market conditions, applicable regulations and political and economic factors or for short durations, part of the corpus may be pending for deployment considering the market conditions, special events, corporate events (like declaration of dividend), etc.

In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days or any such timeline suggested by SEBI from time to time.

Tracking Error:

In accordance with SEBI circular dated May 23, 2022 on "Development of Passive Funds", the tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with suitable corrective actions taken by the AMC. The same shall be disclosed on a daily basis on the websites of AMC and AMFI.

The Scheme shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of respective AMCs and AMFI.

Tracking Difference:

The annualized difference of daily returns between the index and the NAV of the Scheme. The same shall be disclosed on a monthly basis on the websites of AMC and AMFI.

The Scheme, in general, will hold all of the securities that comprise the Underlying Index in the same proportion as the index. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

Change in Investment Pattern

Subject to the Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for maximum period of 7 calendar days and defensive considerations.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations, as detailed later in this document

D. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations and the disclosures as made under the section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

1. In Gold and Gold-related instrument(s).
2. Securities issued by the Central, State Governments and local governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
3. Securities guaranteed by the Central, State Governments and local governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
4. Debt obligations of domestic government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee.
5. Corporate debt (of both public and private sector undertakings).
6. Obligations / Term Deposits of banks (both public and private sector) and development financial institutions.
7. Money market instruments permitted by SEBI/RBI, having maturities of up to one year.
8. Certificate of Deposits (CDs).
9. Commercial Paper (CPs).

10. Bank Fixed Deposits as permitted by SEBI.
11. The non-convertible part of convertible securities.
12. Securitized debt
13. Exchange Traded Commodity Derivatives (ETCDs) with gold as underlying
14. Any other domestic fixed income securities.

Subject to the Regulations, the securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The securities may be acquired through New Fund Offerings (NFOs), secondary market operations, private placement, rights offer or negotiated deals. The Scheme may also enter into repurchase and reverse repurchases obligations in all securities held by it as per the guidelines and regulations applicable to such transactions.

E. WHAT ARE THE INVESTMENT STRATEGIES?

1. The AMC uses a “passive” approach to try and achieve Scheme investment objective. The Scheme invests in gold and gold related securities as an asset regardless of such investment merit.
2. The Scheme will invest at least 95% of its total assets in the Gold or gold related securities. It may hold up to 5% of their total assets in debt or money market securities. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.
3. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the benchmark Index.
4. All the Investment decision will be taken by the designated Fund Manager under the supervision of Chief Investment Officer.
5. Any other strategy notified by the regulators from time to time.

Further, the scheme may participate in Exchange Traded Commodity Derivatives ("ETCDs") with gold as underlying up to 50% of the net asset value of the Scheme.

Exchange Traded Commodity Derivatives (ETCDs):

The Commodity derivatives are instruments designed to give exposure to the commodity market.

Multi Commodity Exchange provides derivatives for bullion, base metals, energy, agri commodities etc. These contracts have varied maturities. The pricing of a commodity derivative is the function of the underlying commodity.

Fixed Income securities

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer. Rated debt instruments in which the Schemes invests will be of investment grade as rated by a credit rating agency. The AMC will be guided by the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of Rating agencies, for this purpose. In case a debt instrument is not rated, such investments shall be made by the Board of Trustees and the Board of Asset Management Company or by an internal committee constituted by AMC to approve the investment in un-rated debt securities in terms of the parameters approved by the Board of Trustees and the Board of Asset Management Company.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Schemes could invest in Fixed Income Securities issued by government, quasi government entities, corporate issuers, structured notes and various other institutions in line with the investment objectives of the Schemes as permitted by SEBI from time to time.

POSITION OF DEBT MARKET IN INDIA

Indian debt markets, in the early nineties, were characterised by controls on pricing of assets, segmentation of markets and barriers to entry, low levels of liquidity, limited number of players, near lack of transparency, and high transactions cost. Financial reforms have significantly changed the Indian debt markets for the better. Most debt instruments are now priced freely on the markets; trading mechanisms have been altered to provide for higher levels of transparency, higher liquidity, and lower transactions costs; new participants have entered the markets, broad basing the types of players in the markets; methods of security issuance, and innovation in the structure of instruments have taken place; and there has been a significant improvement in the dissemination of market information. There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitized Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers.

The yields and liquidity on various securities as on March 31, 2023 are as under:

| Issuer | Instrument | Maturity | Yields (%) | Liquidity |
|------------|---------------------|------------|---------------|----------------|
| GOI | Treasury Bill | 91 Days | 6.83% | High |
| GOI | Treasury Bill | 364 Days | 7.18% | High |
| GOI | Short Dated | 1-3 Years | 7.14% - 7.16% | High |
| GOI | Medium Dated | 3-5 Years | 7.16% - 7.19% | High |
| GOI | Long Dated | 5-10 Years | 7.19% - 7.31% | High |
| Corporates | Taxable Bonds (AAA) | 1-3 Years | 7.70% - 7.70% | Medium |
| Corporates | Taxable Bonds (AAA) | 3-5 Years | 7.70% - 7.70% | Low to Medium |
| Corporates | CDs (A1+) | 3 months | 7.00% | Medium to High |
| Corporates | CPs (A1+) | 3 months | 7.35% | Medium to High |

Investment by the AMC

From time to time and subject to the Regulations, the Sponsors, the Mutual Funds and investment companies managed by them, their associate companies, subsidiaries of the Sponsors, and the AMC may invest either directly or indirectly in any or all the Schemes. The funds managed by these, associates, the Sponsors, subsidiaries of the Sponsors and /or the AMC may acquire a substantial portion of the Scheme's Units and collectively constitute a major investor in the Scheme. Accordingly, redemption of Units held by such funds, associates and Sponsors might have an adverse impact on the Units of the Scheme because the timing of such redemption may impact the ability of

other Unit holders to redeem their Units. Further, as per the Regulation, in case the AMC invests in any of the Schemes managed by it, it shall not be entitled to charge any fees on such investments.

Procedure followed for Investment decisions

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

Pursuant to the Regulations and amendments thereto and subject to the Asset allocation pattern, the following investment restrictions are presently applicable to the Scheme:

1. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - i. Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - ii. The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, contained in Statement of Additional Information.

2. The Scheme may invest in any other scheme under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund. The AMC shall comply with the guidelines

issued by SEBI vide its Circular dated October 8, 2020 and such other guidelines as may be notified from time to time.

3. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
4. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard

5. No loans for any purpose can be advanced by the Scheme.
6. No mutual fund scheme shall make any investments in;
 - any unlisted security of an associate or group company of the sponsor; or
 - any security issued by way of private placement by an associate or group company of the Sponsor; or
 - the listed securities of group companies of the Sponsor which is in excess of 25% of its net assets.
 - Fund of funds scheme.
7. In accordance with SEBI Circular no SEBI/IMD/CIR No. 1/91171/07 dated 16th April 2007 and SEBI/IMD/CIR No. 7 / 12952 /08 June 23, 2008 and SEBI/HO/IMD/DF4/CIR/P/2019/093 dated August 16, 2019, following guidelines shall be followed for parking of fund in short term deposits of Scheduled commercial Banks pending deployment, for a maximum period of 7 working days.
 - a. "Short Term" for such parking of fund by mutual fund shall be treated as a period not exceeding 91 days.
 - b. Such short term deposits shall be held in the name of the concerned scheme.
 - c. No mutual fund scheme shall park more than 15% of the net assets in Short term deposit(s) of all the scheduled commercial Banks put together. However, it may be raised to 20% with prior approval of the trustees. Also, parking of fund in short term deposits of associate and sponsor scheduled commercial Banks together shall not exceed 20% of total deployment by the mutual fund in short term deposits.
 - d. No mutual fund scheme shall park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial Bank including its subsidiaries.
 - e. Trustees/Asset Management Companies (AMCs) shall ensure that no funds of a scheme are parked in short term deposit (STD) of a bank which has invested in that scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD do not invest in the said scheme until the scheme has STD with such bank.

Above conditions are not applicable to term deposits placed as margins for trading in cash and derivative market.

- a. Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
8. The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further all transactions in government securities shall be in dematerialised form.
9. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest or IDCW to the Unitholders. Such borrowings shall not exceed 20% of the net assets of the individual scheme and the duration of the borrowing shall not exceed a period of 6 months.
10. Participation in ETCDs shall be subject to the following investment limits:
 - a. In case of Gold ETFs, the cumulative exposure to gold related instruments i.e. Gold Deposit Scheme (GDS) of banks, Gold Monetization Scheme (GMS) and ETCD having gold as the underlying shall not exceed 50% of net asset value of the scheme.
 - b. However, within the 50% limit, the investment limit for GDS and GMS as part of gold related instrument shall not exceed 20% of net asset value of the scheme. The unutilized portion of the limit for GDS of banks and GMS can be utilized for ETCD having gold as the underlying.
 - c. The cumulative gross exposure through equity, debt and derivative positions (including commodity derivatives) shall not exceed 100% of net asset value of the scheme.
 - d. No mutual fund scheme shall have net short positions in ETCDs on any particular good, considering its positions in physical goods as well as ETCDs, at any point of time.

These investment limitations/parameters as expressed (linked to the Net Asset/Net Asset Value/capital) shall apply at the time of investment.

The Trustee /AMC may alter the above stated limitations from time to time, and also to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make their investments in the full spectrum of permitted investments in order to achieve their investment objective.

| <p>Ongoing price for redemption This is the price you will receive for redemptions.</p> | <p>The Redemption Price of the Units will be based on the Applicable NAV subject to the prevalent exit load provisions. The Redemption Price of the Units will be computed as follows:</p> <p>Redemption Price = Applicable NAV * (1 - Exit Load, if any).</p> <p>Applicable exit load shall be subject to the tenure of investment of the investor in the scheme vis-à-vis the exit load structure applicable when investor had invested in the scheme.</p> <p>Example: An investor invests on April 1, 2017 when the applicable exit load for the scheme was 2% if redeemed within 1 year, else nil.</p> <p>Scenario 1) In case investor redeems before April 1, 2018, then applicable exit load would be 2%. Now suppose the same investor decides to redeem his 1000 units. The prevailing NAV is Rs 25/-. Hence, the sale or redemption price per unit becomes Rs. 24.50/- i.e. $25 \times (1 - 2\%)$. The investor therefore gets $1000 \times 24.50 = \text{Rs. } 24,500/-$.</p> <p>Scenario 2) In case investor redeems on or after April 1, 2018, then applicable exit load would be nil. Now suppose the same investor decides to redeem his 1000 units. The prevailing NAV is Rs 30/-. Hence, the sale or redemption price per unit will be Rs. 30/- i.e. $30 \times (1 - 0)$. The investor therefore gets $1000 \times 30 = \text{Rs. } 30,000/-$.</p> <p>On Stock exchanges:</p> |

The units will be created in a minimum size of 1,10,000 units and in multiples thereof through Authorised Participants and large investors. The minimum number of units that can be bought on stock exchanges is one unit.</p> <p>The Fund shall ensure that the Redemption Price is not lower than 93% of the NAV and the Purchase Price is not higher than 107% of the NAV, provided that the difference between the Redemption Price and Purchase Price of the Units shall not exceed the permissible limit of 7% of the Purchase Price, as provided for under the Regulations.</p> <p>Directly with the Fund:</p> <p>Any order placed for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for MMs and shall be periodically reviewed.</p> <p>Investors can directly approach the AMC for redemption of units of the Scheme, for transaction upto INR 25 Cr. without any exit load, in case of the following scenarios:</p> <ul style="list-style-type: none"> i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or iii. Total bid size on the exchange is less than half of creation unit size daily, averaged over a period of 7 consecutive trading days. <p>In case of the above scenarios, applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day.</p> |

| <p>Communication via Electronic Mail (e-mail)</p> | <p>It is hereby notified that wherever the investor(s) has/have provided his/their e-mail address in the application form or any subsequent communication in any of the folio belonging to the investor(s), the Fund/Asset Management Company reserves the right to use Electronic Mail (e-mail) as a default mode to send various communication which include account statements for transactions done by the investor(s). The investor(s) may request for a physical account statement by writing or calling the Fund's Investor Service Centre / Registrar & Transfer Agent. In case of specific request received from investor(s), the Fund shall endeavour to provide the account statement to the investor(s) within 5 working days from the receipt of such request.</p> |
| <p>Tax Status of the investor</p> | <p>For all fresh purchases, the AMC reserves the right to update the tax status of investors, on best effort basis, on the basis of Permanent Account Number/Bank Account details or such other information of the investor available with the AMC for the purpose of determining the tax status of the investor. The AMC shall not be responsible for any claims made by the investor/third party on account of updation of tax status.</p> |

How the Scheme will work?

I) Allotment of units in case of applications for subscription/redemptions received in form of cheque or demand draft or Gold:

Authorised Participants and Large Investors can directly buy or sell in 'Creation Unit' Size, subject to limit of Rs. 25 crores from the fund on any business day provided the units applied for purchase/repurchase is multiples of 1,10,000 units or such other size as may be changed from time to time in order to equate it with marketable lots of the underlying instruments. The AMC may at its own discretion allow purchases by accepting cheque or demand draft from the Authorised Participants/ others in lieu of gold towards creation of units. Purchase request for creation units shall be made by such investors to the AMC whereupon the AMC will arrange to buy the gold of the specified purity. On receipt of confirmation of credit of gold deposits in the Scheme's account, the AMC will instruct the Registrar & Transfer Agent to create the relevant number of units in the name of the investor. All incidental charges including transaction costs for such purchase will be borne by the investors. The AMC may levy fees/load/charges to be announced from time to time, for this facility.

II) Purchase / Redemption on an ongoing basis:

An investor can buy/sell units of the Scheme Gold Units on a continuous basis on NSE, BSE and other recognized stock exchanges where units of the Scheme are listed and traded like any other publicly traded securities at prices which may be close to the actual NAV of the Scheme. There is no minimum investment. The trading lot is one unit of the Scheme.

Investors can purchase units of the Scheme at market prices, which may be at a premium/discount to the NAV of the Scheme depending upon the demand and supply

of units of the Scheme at the exchanges. Trustees / AMC will not be responsible for price vagaries in the quoted price of the units on NSE or BSE.

Any order placed by investor for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for MMs and shall be periodically reviewed.

Investors can directly approach the AMC for redemption of units of the Scheme, for transaction upto INR 25 Cr. without any exit load, in case of the following scenarios:

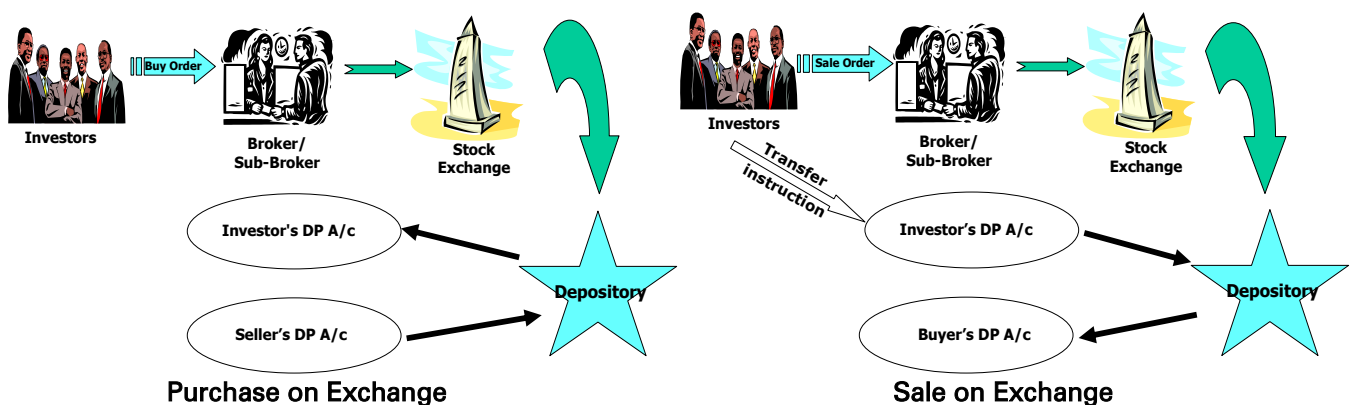

- i. Traded price (closing price) of the Scheme units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- ii. No quotes for the Scheme are available on stock exchange(s) for 3 consecutive trading days, or
- iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

In case of the above scenarios, applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day.

The threshold of INR 25 crores for direct transaction in the units of the Scheme with the AMC is effective from May 1, 2023. Investors can therefore transact in the units of the Scheme directly with the AMC in the respective creation unit size as applicable in the SIDs

III) Settlement of purchase/sale of units of the Scheme on the stock exchange:

Buying/Selling units of the Scheme on the stock exchange is just like buying / selling any other normal listed securities. If an investor has bought units, an investor has to pay the purchase amount to the broker / sub-broker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the exchange. If an investor has sold units, investor has to deliver the units to the broker/sub-broker before the securities pay-in day of the settlement cycle on the exchange. The units (in case of units bought) and the funds (in the case of units sold) are paid out to the broker on the payout day of the settlement cycle on the exchange.

The exchange regulations stipulate that the trading member should pay the money or units to the investor within 24 hours of the pay in/payout. If an investor has bought units, he should give standing instructions for 'Delivery-In' to his/her DP for accepting

units in his/her beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her DP to his/her trading member. The trading member will transfer the units directly to his/her beneficiary account on receipt of the same from exchange's clearing corporation.

An investor who has sold units should instruct his/her depository participant (DP) to give 'Delivery Out' instructions to transfer the units from his/her trading member through whom he/she have sold the units. The details of the pool A/c of his/her trading member to which the units are to be transferred, unit quantity etc. should be mentioned in the delivery out instructions given by him/her to the DP. The instructions should be given before the prescribed securities pay-in day. SEBI has advised that the delivery out instructions should be given atleast 24 hours prior to the cut off time for the prescribed securities pay in to avoid any rejection of instructions due to data entry errors, network problems, etc.

IV) Purchase / Redemption in 'Creation Unit' size through AMC:

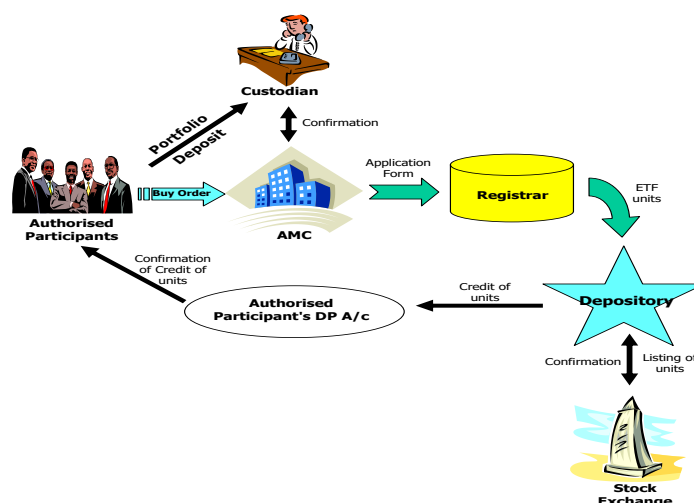

The Authorised Participants/ Market Makers and Large Investors can directly buy/sell with the funds in Creation Unit Size by exchanging portfolio deposit as follows: -

The Fund creates / redeems units in large size known as 'Creation Unit'. The value of the 'Creation Unit' is 1 kilogram of Gold or in multiple thereof called as the 'Portfolio Deposit' and a 'Cash Component' which will be exchanged for the respective number of units of the Scheme. The Portfolio Deposit and the Cash Component, which defines the Creation Unit, are defined separately. The Portfolio Deposit and Cash Component may change from time to time and will be announced by AMC/Fund to the Authorised Participants.

Any order placed by investor for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for MMs and shall be periodically reviewed.

Purchase: The requisite gold constituting the Portfolio Deposit have to be submitted to the Custodian/AMC/Registrar while the Cash Component has to be paid to the Custodian/AMC. On confirmation of the same by the Custodian/AMC that the predefined quantity and purity of gold has been received, the AMC will transfer the respective number of units of the Scheme into the AP's DP account.

Diagrammatic Representation

Redemption: The requisite number of units of the Scheme equaling the Creation Unit has to be transferred to the Fund's DP account and the Cash Component to be paid to the AMC / Custodian. On confirmation of the same by the AMC, the Custodian will transfer the Portfolio Deposit by transfer of Gold of the predefined purity and quantity to the investors' account and pay the Cash Component, if applicable.

Investors can directly approach the AMC for redemption of units of the Scheme, for transaction upto INR 25 Cr. without any exit load, in case of the following scenarios:

- i. Traded price (closing price) of the Scheme units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- ii. No quotes for the Scheme are available on stock exchange(s) for 3 consecutive trading days, or
- iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

In case of the above scenarios, applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day.

Diagrammatic Representation

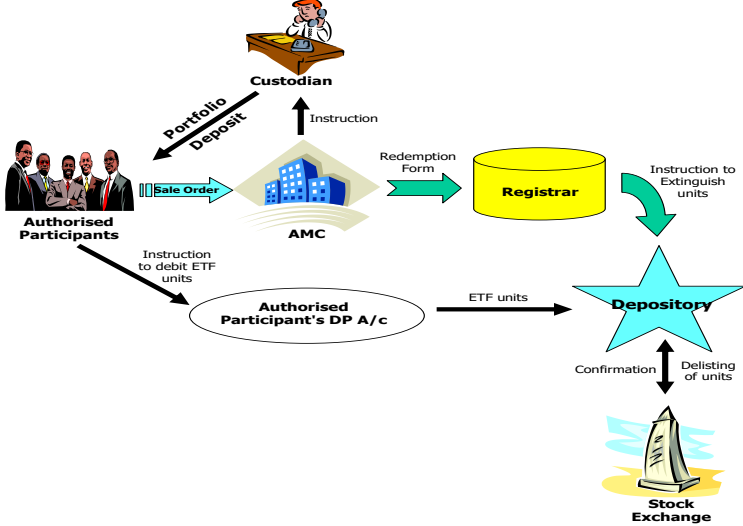

Illustration and meaning of creation unit size, portfolio deposit and Cash component: 'Creation Unit' size is a fixed number of units, which is exchanged for Portfolio Deposit which would consist of Gold of defined purity and quantity and Cash Component. Each creation unit consists of 1,10,000 units of the Scheme. The Fund may from time to time change the size of the creation unit in order to equate it with marketable lots of the underlying instruments.

Portfolio Deposit is a pre-defined quantity and purity of gold which has to be submitted to the Custodian/AMC/Registrar at the time of subscribing for units directly from the fund in creation unit size and will be defined and announced by the Fund on allotment date and on all Business Days thereafter. Portfolio Deposit will change from time to time.

The Cash Component represents the difference between the applicable net asset value of Creation Unit and the market value of Gold. This difference will represent accrued interest, income earned by the Scheme, accrued annual charges including management fees and residual cash in the Scheme. In addition the Cash Component will include transaction cost as charged by the Custodian/DP and other incidental expenses for creating / redeeming units and other taxes as applicable. The cash component will vary from time to time and will be decided and announced by the AMC. Cash Component will also include exit load, if applicable. The exit load will be declared by the AMC from time to time and will be within the limits specified under the Regulations.

Illustration: Computation of Cash Component

| | | |
|---|---|-------------|
| Number of units consisted in 1 'Creation Unit' size | A | 1,10,000.00 |
| NAV per unit | B | Rs. 42.2329 |
| Value of 1 'Creation Unit' (A*B) | C | Rs. 4645619 |
| Closing Price of Gold (Based on LBMA AM fixing) | D | Rs. 43.1507 |
| Value of Portfolio Deposit (1 Kg of Gold) (D*1000) | E | Rs. 4746577 |
| Cash Component (C-E) | F | Rs. -100958 |

Please note that the above example is given for illustration purposes only. Some assumptions have been made with respect to prices of gold and NAV of the Scheme for the sake of portfolio deposit. The price of gold does not reflect the current prices of gold. Other expenses/fees payable to the Custodian, depositories, exchanges etc. are not considered in the illustration which may also need to be payable by the investor.

V) Premium:

The units of ICICI Prudential Gold ETF will be issued at a 'premium' which is equivalent to the difference between the allotment price as determined from the actual purchase price of gold and the face value of Rs 1/-. After charging the premium each gold unit will closely correspond to the domestic prices of gold as determined from the LBMA AM fixing prices.

Illustration:

| | | |
|---------------------|---|-------------|
| Minimum Investment | A | Rs.5,000.00 |
| NAV per unit | B | Rs.42.2329 |
| Face Value per unit | C | Rs.1.00 |
| Premium (B-C) | D | Rs.41.2329 |

The amount mentioned as "Premium" should not be construed in its strictest meaning. It is a difference to ensure that the price of 1 unit which is charged from the investor is approximately equal to 1/100th of 1 gram of gold. Units of mutual fund schemes have to be subscribed and redeemed at NAV based prices.

D. COMPUTATION OF NAV

a) Valuation of Gold of 0.995 fineness and 0.999 fineness

The gold acquired by the scheme is in the form of standard bars and its value as on a particular day is determined as under:

- a) The London Bullion Market Association's (LBMA) AM fixing price per troy ounce would be considered.
- b) The Cost, Insurance, Freight premium, LBMA fixing charges and other charges, as applicable, shall be added to the above LBMA price as determined above.
- c) The value arrived at based on (a) and (b) above shall then be converted to the equivalent price for 1 kilogram gold of 0.995/0.999 fineness by applying the conversion factor.
- d) The RBI reference rate shall be applied to convert the price from US dollars to Indian Rupees.
- e) Statutory taxes and levies, as applicable from time to time, shall be added to arrive at the final landed price of gold after adjusting for eligible input tax credit.

If on any day the LBMA AM fixing or RBI reference rate is not available due to holiday or any other reason, then the immediately previous day's prices shall be applied for the purpose of calculating the value of gold.

b) Exchange Traded Commodity Derivatives (ETCDs)

Exchange Traded Commodity Derivatives (ETCDs) shall be valued at the last quoted closing price on the exchange where such ETCD Contracts are Listed. In the event the last quoted closing price as referred above is not available, such ETCD contracts shall be valued at the Settlement price of the respective stock exchange. In case necessary details to value ETCDs are not available or if the prices as per above do not represent fair price, the valuation committee, in order to ensure fair valuation, will determine price, based on the available information.

The NAV of the Scheme shall be rounded off upto four decimals.

c) NAV of units under the Scheme shall be calculated as shown below:

$$\begin{array}{r} \text{Market or Fair Value of Scheme's investments + Current Assets -} \\ \text{Current Liabilities and Provision} \\ \text{NAV} \qquad \qquad \qquad \qquad \qquad \qquad \text{(Rs.)} \qquad \qquad \qquad \qquad \qquad \qquad = \\ \hline \text{No. of Units outstanding under Scheme as on valuation date} \end{array}$$

The NAV of the Scheme will be calculated as of the close of the next calendar day. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the Valuation Policy and Procedures of the Fund, provided in SAI. iNAV's shall be disclosed on a continuous basis on Stock Exchange (s), where the units of the Scheme are listed and traded and shall be updated based on the latest available data for Gold. Accordingly, iNAV disclosed for Gold ETF may either be static or dynamic depending upon the availability of the underlying price.

IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the Scheme.

A. NEW FUND OFFER (NFO) EXPENSES

Not Applicable.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that the following percentage of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund. The mutual fund would update the current expense ratios on the website at least three working days prior to the effective date of the change. Investor can refer <https://www.icicpruamc.com/Downloads/total-expense-ratio.aspx> for Total Expense Ratio (TER) details.

| Additional expenses for gross new inflows from specified cities* (more specifically elaborated below) | Up to 0.30 |

The aforesaid does not include Goods and Services tax on investment management and advisory fees. The same is more specifically elaborated below.

*As permitted under the Regulation 52 of SEBI (MF) Regulations, 1996 and pursuant to SEBI circulars no. CIR/IMD/DF/21/2012 dated September 13, 2012, SEBI/HO/IMD/DF2/CIR/P/2018/16 dated February 02, 2018, SEBI/HO/IMD/DF2/CIR/P/2018/137 dated October 22, 2018 and SEBI (Mutual Funds) Second Amendment Regulations, 2012 and Securities and Exchange Board of India (Mutual Funds) (Fourth Amendment) Regulations, 2018.

\$ Including exchange listing fee

These estimates have been made in good faith as per information available to the AMC and the total expenses may be more than as specified in the table above. However, as per the Regulations, the total recurring expenses that can be charged to the Scheme in this SID shall be subject to the applicable guidelines.

The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the Scheme will bear.

The Scheme can charge expenses within overall maximum limits prescribed under SEBI (MF) Regulations, without any internal cap allocated to any of the expense heads specified in the above table.

As per the Regulations, the maximum recurring expenses that can be charged to the Scheme shall not exceed one percent (1.00%) of daily net assets.

Pursuant to SEBI circulars no. CIR/IMD/DF/21/2012 dated September 13, 2012, SEBI/HO/IMD/DF2/CIR/P/2018/16 dated February 02, 2018, SEBI/HO/IMD/DF2/CIR/P/2018/137 dated October 22, 2018, SEBI (Mutual Funds) Second Amendment Regulations, 2012 and Securities and Exchange Board of India (Mutual Funds) (Fourth Amendment) Regulations, 2018, following additional costs or expenses may be charged to the scheme, namely:

(i) The AMC may charge Goods and Services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations, whereas Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.

(ii) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities as specified by the Securities and Exchange Board of India, from time to time are at least –

- 30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;
- 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher;

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

B30 expenses shall be charged by the AMC subject to SEBI/AMFI clarifications received from time to time.

For above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme amount upto Rs. 2,00,000/- per transaction.

At least 1 basis point on daily net assets shall be annually set apart for investor education and awareness initiatives. The same shall be within limits specified under Regulation 52 of the SEBI (Mutual Funds) Regulation.

Any payment towards brokerage and transaction cost, over and above the said 12 bps for cash market transactions may be charged to the Scheme within the maximum limit of Total Expense Ratio as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Goods and Services tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

Expenses shall be charged / borne in accordance with the Regulations prevailing from time to time.

C. LOAD STRUCTURE

Load is an amount, which is paid by the investor to redeem the units from the Scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.icicipruamc.com) or may call your distributor.

| | |
|------------|---|
| Entry Load | Not Applicable. In terms of SEBI circular no. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009 it has been notified that, w.e.f. August 01, 2009 there will be no entry load charged to the schemes of the Mutual Fund. |
| Exit Load | Nil |

The exit load charged, if any, shall be credited to the scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Investors can directly approach the AMC for redemption of units of the Scheme, for transaction upto INR 25 Cr. without any exit load, in case of the following scenarios:

- i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- iii. Total bid size on the exchange is less than half of creation unit size daily, averaged over a period of 7 consecutive trading days.

Units issued on reinvestment of IDCW shall not be subject to entry and exit load.

The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

Any imposition or enhancement in the load shall be applicable on prospective investments only. However, AMC shall not charge any load on issue of units allotted on reinvestment of IDCW for existing as well as prospective investors. Units issued on reinvestment of IDCW shall not be subject to entry and exit load.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- i. The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- ii. Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- iii. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application

form and will also be disclosed in the statement of accounts issued after the introduction of such load.

- iv. A public notice shall be provided on the website of the AMC in respect of such changes.

The investor is requested to check the prevailing load structure of the Scheme before investing.

Cases pertaining to ICICI Bank Ltd. (the Bank):

1. SEBI issued an Adjudication Order on September 12, 2019 imposing a penalty of rupees 5 lakh each under Section 15 HB of SEBI Act and Section 23E of SCRA on the Bank and rupees 2 lakhs under Section 15HB of SEBI act on the ex-compliance officer(eCO) on alleged delayed disclosure of an agreement relating to merger of ICICI Bank Limited with erstwhile Bank of Rajasthan. The eCO and the Bank had filed an appeal against SEBI's order with the Securities Appellate Tribunal ("SAT") and SAT vide its orders has converted the monetary penalty imposed on the Bank and eCO to warning, respectively.

Subsequently, SEBI filed an appeal with the Supreme Court of India ("Supreme Court") against the aforementioned SAT orders. Separately, the Bank had also filed an appeal with the Supreme Court against SAT order. These matters were heard with Supreme Court The Bank and eCO subsequently filed counter-

affidavits before the Supreme Court. To bring closure to the matter, the eCO and the Bank filed the settlement application under SEBI (Settlement Proceedings) Regulations, 2018 with SEBI pursuant to which the eCO and the Bank has paid the settlement amount to SEBI. The Bank and the eCO filed the applications seeking for disposal of the civil appeal matters pending before the Supreme Court which were heard on January 4, 2022 and Supreme Court vide its order dated January 4, 2022 disposed off all the appeals in view of the settlement between the parties. Further, SEBI vide their email dated May 12, 2022 has communicated that in view of the Order of the Hon'ble Supreme Court, the matter stands settled in respect of the appeals as mentioned in the said order.

2. The Bank & its ex-Managing Director & CEO had received a Show Cause Notice (SCN) from SEBI on May 24, 2018 under Rule 4(1) of SCR (Procedure for Holding Inquiry and imposing penalties by Adjudicating Officer) Rules 2005 requiring responses on matters relating to alleged non-compliance with certain provisions of the erstwhile Listing Agreement and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. Thereafter, personal hearing was held at SEBI on the said notice on October 16, 2018 and supplements to the earlier notice was submitted on October 31, 2018, January 10, 2019, February 1, 2019, February 22, 2019, February 27, 2019 and December 9, 2019. On November 19, 2020, SEBI issued a modified SCN to the Bank in relation to the above wherein it included Clause 2 of Uniform Listing Agreement and Section 21 of SCRA in addition to the existing cited provisions. Post inspection of documents, the Bank has submitted its final response on the MSCN to SEBI on February 12, 2021. Further, Ex-MD and CEO filed an appeal with Securities Appellate Tribunal (SAT) against SEBI which was heard on June 10, 2022. SAT issued an order dated June 14, 2022 directing Ex-MD and CEO to file a fresh application with SEBI, indicating with clarity and precision of documents sought for inspection within two weeks from the date of order. Subsequently, SEBI vide letter dated August 18, 2022 sought documents/materials from the Bank with reference to adjudication proceedings which was submitted to SEBI on September 1, 2022. Subsequently, SEBI vide email dated November 10, 2022 and December 27, 2022 had sought certain documents which were submitted to SEBI.
3. SEBI issued a Show Cause Notice dated January 30, 2020 received by us on February 11, 2020 wherein they have alleged that the Bank has failed to provide appropriate protection against victimisation of the complainant and thus violated the provisions of Regulation 22(2) of the SEBI LODR Regulations, 2015. The Bank submitted its reply to the SCN on March 23, 2020. To bring closure to the matter, on July 17, 2020, the Bank has submitted a settlement application with SEBI under Securities and Exchange Board of India (Settlement Proceedings) Regulations, 2018. SEBI issued a Settlement Order dated January 29, 2021 mentioning that the adjudication proceedings in the said matter is disposed of in terms of section 15JB of the SEBI Act, 1992 read with regulation 23(1) of Settlement Regulations on the basis of the settlement terms.
4. The Bank in its capacity as Designated Depository Participant ("DDP") has received a show-cause notice (SCN) dated December 28, 2020 from SEBI (received on December 31, 2020), for alleged violation of SEBI (Foreign Portfolio Investors) Regulations, 2019/2014 and other related Guidelines. SEBI vide the SCN has alleged that the Bank (as DDP) did not report to SEBI the delay in intimation

of change in grouping information of two FPIs where the delay was beyond six months and the Bank did not enquire from the FPIs as to since when the two FPIs had common control. On May 15, 2021 the Bank had submitted its detailed response to the SCN to SEBI. Pursuant to the submission of response, on May 17, 2021 personal hearing was held and on May 21, 2021 additional submission was made by the Bank to SEBI. After considering the detailed/additional submissions made by the Bank, SEBI issued an Adjudication Order on June 29, 2021 wherein SEBI had dropped the charges against the Bank.

5. The Financial Intelligence Unit – India (FIU-IND) vide its order dated July 30, 2021 issued a warning under Section 13 of PMLA, 2002 for non-compliance with provisions of Section 12. The said warning was issued for failing to have an effective internal mechanism to detect and report complete information in respect of Cross Border Wire Transfer Reports. The FIU-IND in its order has also mentioned that resubmission of the entire cross border wire transfer data by the Bank according to the guidelines is a mitigating factor in favour of the Bank.
6. The Directorate of Enforcement (DOE) had issued six Show-Cause Notices(SCN's) against ICICI Bank and certain other entities and persons alleging certain violations under Foreign Exchange Management Act, 1999 mainly pertaining to the sale of foreign exchange travel cards to travellers.

In four of these matters, the Enforcement Directorate has imposed penalties as under:

- i. Rs. 0.8 million on ICICI Bank Ltd and similar amount on one of its employee vide order dated March 24, 2020. The Bank has filed an appeal against the order with Appellate Tribunal for Foreign Exchange, New Delhi.

The Bank had submitted its responses to RBI

and subsequently RBI has informed that the charges against the Bank have been dropped and hence the matter stands closed.

On October 03, 2022, ICICI Bank Limited's New York Federal Branch ("NY Branch") entered into a "Consent Order" with its federal banking supervisor, the Office of the Comptroller of the Currency ("OCC"), which requires the NY Branch to enhance certain processes in its Bank Secrecy Act/Anti-Money Laundering ("BSA/AML") program and establish and maintain an effective Sanctions Compliance program. The Consent Order does not involve any monetary penalty and the Consent Order will not have a material adverse effect on its business, nor does the Consent Order restrict any of the NY Branch's existing activities, apart from requiring the corrective actions as specified under the Consent Order. The NY Branch is committed to taking all necessary and appropriate steps to address the aspects identified and implement the corrective actions required by the OCC.

8. Reserve Bank of India (RBI) in December 2020 issued a Show Cause Notice (SCN) for continued operations in InstaSave Salary accounts despite aggregate balances exceeding permissible limits. Subsequently, in May 2021 RBI has cautioned the Bank to be careful in future in the matter.
9. The Bank had received a Show Cause Notice from Insurance Regulatory and Development Authority of India (IRDAI) on May 9, 2019 for receipt of payment in relation to administration support expenses from ICICI Life during FY2016 in violation of Insurance laws. The Bank responded through letter dated May 17, 2019 stating that the payment was in line with applicable laws, properly disclosed in financial statements and was stopped w.e.f. April 1, 2017, i.e. post promulgation of new commission regulations. The Bank officials represented the Bank's point of view during the personal hearing with IRDAI on January 29, 2020 and Revert from IRDAI is awaited.
10. The Bank has on May 20, 2020 received a Show Cause Notice from IRDAI subsequent to its onsite inspection between June 4 - 8, 2018 with regard to Corporate Agent activities performed by the Bank. The Bank has submitted its response on June 29, 2020. The Bank officials represented the Bank's point of view during the personal hearing with IRDAI on May 13, 2022. On July 27, 2022, IRDAI has issued final order comprises of advisories and & direction and no penalty was imposed. Through letter dated August 18, 2022, Bank has submitted the manner of compliance to IRDAI.
11. The RBI has, by an order dated May 03, 2021, imposed a monetary penalty of ₹ 3 Crores on the Bank. This penalty has been imposed under the provisions of section 47 A (1) (c) read with sections 46 (4) (i) of the Banking Regulation Act, 1949 for shifting certain investments from Hold till Maturity (HTM) category to Available for Sale (AFS) category in May 2017. The Bank had transferred two separate categories of securities on two different dates from HTM to AFS in April and May of 2017, which it believed was permissible as per Master Circular on Prudential Norms for Classification, Valuation and Operation of Investment Portfolio by Banks' dated July 01, 2015. RBI has held that the shifting of securities the second time in May 2017 without explicit permission was in contravention of RBI directions.

12. The Reserve Bank of India (RBI) has by an order dated December 13, 2021 (received by the ICICI Bank on December 15, 2021) imposed a monetary penalty of ₹ 30 Lakhs on the ICICI Bank (Bank) under the provisions of Section 46(4) (i) read with Section 47A (1) of Banking Regulation Act 1949 for non-compliance with certain directions issued by RBI on 'Levy of Penal charges on non-maintenance of minimum balance in savings bank accounts' dated November 20, 2014. The Bank was levying charge of ₹ 100/- plus a percentage of shortfall between the minimum average balance (MAB) required to be maintained and actual balance maintained in the saving account as agreed upon at the time of account opening. RBI has held that levy of charges for non-maintenance of MAB were not directly proportionate to the extent of the shortfall observed in the required MAB and actual balance maintained. The Bank has taken steps to align the charge levied for non-maintenance of MAB with the above direction of RBI.
13. The Bank received a show cause notice dated February 17, 2023 from RBI under Sections 35, 35A, 46 and 47A of the Banking Regulation Act, 1949 relating to non-compliance with the statutory provisions and the Reserve Bank directions, which were observed during statutory inspections for the financial position as on March 31, 2020 and March 31, 2021.

3) Details of all enforcement actions taken by SEBI in the last three years and/ or pending with SEBI for the violation of SEBI Act, 1992 and Rules and Regulations framed there under including debarment and/ or suspension and/ or cancellation and/ or imposition of monetary penalty/adjudication/enquiry proceedings, if any, to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel (especially the fund managers) of the AMC and Trustee Company were/ are a party. Subject to the Regulations, the Trustee may, from time to time, prescribe such terms and make such rules for the purpose of giving effect to the Scheme with power to the AMC to add to, alter or amend all or any of the terms and rules that may be framed from time to time.

5. Power to remove Difficulties

If any difficulties arise in giving effect to the provisions of the Scheme, the Trustee may, subject to the Regulations, do anything not inconsistent with such provisions, which appears to it to be necessary, desirable or expedient, for the purpose of removing such difficulty.

6. Scheme to be binding on the Unitholders:

Subject to the Regulations, the Trustee may, from time to time, add or otherwise vary or alter all or any of the features of investment plans and terms of the Scheme after obtaining the prior permission of SEBI and Unitholders (where necessary), and the same shall be binding on all the Unitholders of the Scheme and any person or persons claiming through or under them as if each Unitholder or such person expressly had agreed that such features and terms shall be so binding.

Notwithstanding anything contained in this Scheme Information Document, the provisions of the SEBI (Mutual Funds) Regulations, 1996 and the guidelines there under shall be applicable.

The Trustees have approved the Scheme vide resolution passed by circulation dated July 19, 2004.

The Trustees have ensured that the Scheme approved by them is new product offered by ICICI Prudential Mutual Fund and is not a minor modification to any of the existing Schemes.
