

About the Scheme

Launched on August 31, 2001, **ICICI Prudential Child Care Fund (Gift Plan)** is an open ended fund for investment for children having lock-in for at least 5 years or till the child attains age of majority (whichever is earlier)

The Scheme is designed to help the investor give the child a head start in life by leveraging the opportunities and dynamism of equity and debt markets.

Current Investment Strategy

Equity:

- *High Conviction* - The fund manager invests in securities based on high conviction.
- *Blend of large, mid and small-cap stocks* – The scheme shall invest across market capitalisation with equity allocation in the range of 65-100%. While the large cap stocks represent established enterprises with track record, the small and midcaps are growing businesses with long-term growth potential. The allocation is decided on a tactical basis rather than any predefined ratio.
- *Combination of bottom-up and top-down approach* - Stock-picking is generally through bottom-up approach, seeking to identify companies that have above-average profitability and are supported by sustainable competitive advantages. The scheme also uses top-down approach for risk control through sectoral diversification.

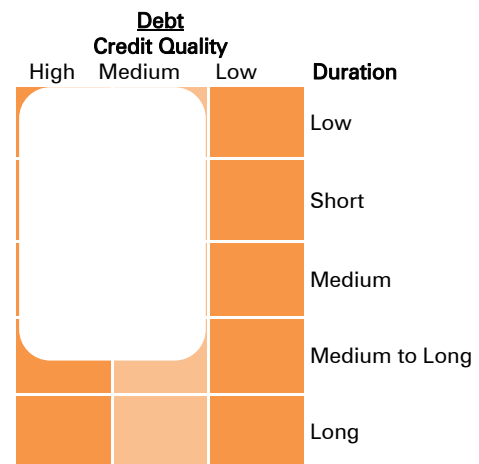

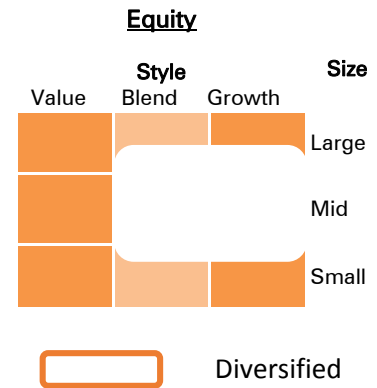

Debt:

- The Scheme also invest in debt securities and money market instruments with an aim to generate accrual income and potential capital appreciation. The scheme has the flexibility of moving up to 35% in the debt securities if the risk-reward ratio is favourable to such allocation.

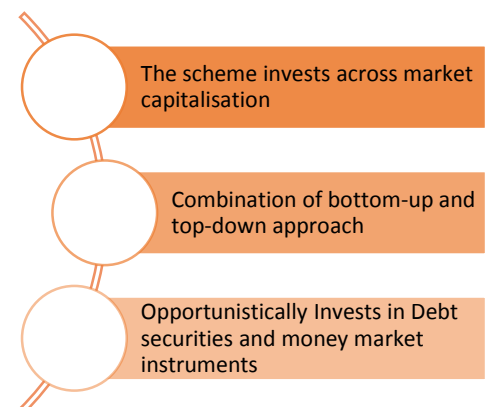

Why ICICI Prudential Child Care Fund (Gift Plan)?

- The scheme is suitable for investors who wish to invest across market caps.
- Investors who are willing to make a long-term investment for investment for children to capture opportunities both in equity and debt markets can consider investing in this scheme
